

Compact Roof Vent

A great alternative to plastic roof vents and also to traditional cowl, pipe and flashing. Currently available in Monument and also in a galvanised finish that can be sprayed or powdercoated to match a specific roof color. Given there is no long pipe requiring bracing, this vent is quick and easy to install. Mesh ensures a BAL-40 rating as well as keeping insects and pests out.

- + Suits either metal or tiled roofs (flashing not included – choose your own)
- + Available in Monument powdercoat or galvanised finish
- + All metal – no plastic components
- + Faster to install than the traditional cowl, pipe and flashing
- + Includes mesh to protect from pests and rodents
- + BAL-40 compliant

With tiled roof flashing (not included)

With steel roof flashing (not included)
